

PINSTOOL ARMCHAIR

KURBITS 325

Kurbits 325 is a peg armchair with a striking design. The name Kurbits comes from the decorative painting of Dalarna - a landscape that inspires the entire furniture family. It comes with a curved back and back cushion, for increased comfort and accessibility. The armchair is made of birch wood, with the option to choose between a wooden seat or a seat cushion in removable fabric.

Kurbits 325 is available in clear lacquered birch or stained in black or white as standard.

Kurbits tillverkas i björk och är märkt med FSC®-Mix. Stolen är ritad av Helene Tiedemann.

DIMENSIONS

Height	97 cm
Width	70 cm
Depth	70 cm
Seat height	45 cm
Seat depth	45 cm
Höjd armledare	66 cm

ADDED VALUE

- Kurbits are suitable for corridors, conversation rooms and dining rooms
- Generous measurements suit more kinds of people
- Royal comfort
- Removable upholstery
- Any color
- Tested for public use and meets the requirements for durability & safety, set forth in the following standard, EN 16139

ACCESSORIES

- Frame in birch
- Frame in any color
- Rubber fabric/hospital fabric
- Available in wooden seat and with seat cushion
- Back cushion

Any NCS-color available as an option on this product.

REUSE

- Solid wood
- Removable upholstery
- Replaceable padding

FABRIC

- Removable and washable fabrics are washed according to washing instructions. These are sewn with a shrink seam, wash before use for optimal fit.
- Vacuuming with a soft nozzle is often sufficient for cleaning.
- Stains should always be removed as quickly as possible. In most cases, wiping with a damp cloth is sufficient, for more difficult stains, a pH-neutral detergent or a foam detergent for professional use can be used.
- Always use white cloths and avoid wetting a woolen fabric to a greater extent, as this risks remaining stains.
- If necessary, a foam detergent can also be used for a more thorough cleaning if this is allowed in the fabric's specification.

WOOD

Wood is a living material whose grain from the very beginning has a natural variation in pattern, color tone and luster. The wood is affected by, among other things, the season, heat and humidity. That wood is a living material means:

- Screws need to be re-tightened regularly, at least once a year.
- Solid table tops can naturally warp by up to 0.5%.
- Light from the sun and lighting can cause permanent color and light differences in the surface, so allow the entire wooden surface to be exposed to the same amount of light.

Out of concern for the environment, we paint a large part of our range with water-based surface treatments. This means:

- Spills of coffee and other liquids need to be wiped up immediately.
- For cleaning, hand washing detergent or pH-neutral detergents and lukewarm water are recommended. Wipe off with clean water and wipe dry. Do not use cleaning agents that are alkaline, aggressive, contain abrasives or solvents.
- For disinfection, non-alcohol-based agents are recommended, e.g. Virkon or DAX Alco Free. Alcohol-based agents must not be used.
