

ARMCHAIR

BJÖRN 185

Björn 185 is a peg chair with an innovative design in birch wood. It is design by Björn Dahlström, who also gave the chair its name. A prominent part of the design is the upper part of the back, which stabilizes the round bars. Björn 185 comes with armrests and can be hung for easy storage.

The chairs in the Björn family are made of birch wood and are labeled with FSC-mix and Möbelfakta. Björn is delivered with a wooden seat or with an upholstered, fixed seat. Take a look at our fabric guide to find the right fabric.

ADDED VALUE

- Curved back combined with an even number of pegs in the back to provides free space for the spine and best comfort
- Generous measurements suit more kinds of people
- Related to the armchair Sture and the armchair Curt
- Hangable
- Any color
- Tested for public use and meets the requirements for durability & safety, set forth in the following standard, EN 16139

ACCESSORIES

- Frame in birch
- Frame in any color
- Available in wooden and fixed upholstered seat
- Shaped sheepskin
- Sliding wheels

REUSE

- Solid wood

DIMENSIONS

Height	84 cm
Width	53 cm
Depth	56 cm
Seat height	48 cm
Seat depth	39 cm
Höjd armledare	66 cm

Any NCS-color available as an option on this product.

FABRIC

- Removable and washable fabrics are washed according to washing instructions. These are sewn with a shrink seam, wash before use for optimal fit.
- Vacuuming with a soft nozzle is often sufficient for cleaning.
- Stains should always be removed as quickly as possible. In most cases, wiping with a damp cloth is sufficient, for more difficult stains, a pH-neutral detergent or a foam detergent for professional use can be used.
- Always use white cloths and avoid wetting a woolen fabric to a greater extent, as this risks remaining stains.
- If necessary, a foam detergent can also be used for a more thorough cleaning if this is allowed in the fabric's specification.

WOOD

Wood is a living material whose grain from the very beginning has a natural variation in pattern, color tone and luster. The wood is affected by, among other things, the season, heat and humidity. That wood is a living material means:

- Screws need to be re-tightened regularly, at least once a year.
- Solid table tops can naturally warp by up to 0.5%.
- Light from the sun and lighting can cause permanent color and light differences in the surface, so allow the entire wooden surface to be exposed to the same amount of light.

Out of concern for the environment, we paint a large part of our range with water-based surface treatments. This means:

- Spills of coffee and other liquids need to be wiped up immediately.
- For cleaning, hand washing detergent or pH-neutral detergents and lukewarm water are recommended. Wipe off with clean water and wipe dry. Do not use cleaning agents that are alkaline, aggressive, contain abrasives or solvents.
- For disinfection, non-alcohol-based agents are recommended, e.g. Virkon or DAX Alco Free. Alcohol-based agents must not be used.
