

HIGH BAR STOOL

RIALTO 438 HÖG

Rialto 438 High is an extra high bar stool with an innovative design. The Rialto series is inspired by the Rialto Bridge in Venice and its angular and angular shape. A prominent detail of the design is the bag hanger on the back of the bar stool - perfect for cafes and restaurants.

Rialto 438 High is made of solid birch and is labeled FSC Mix. It is offered in clear lacquer or black or white stain as standard. The entire Rialto series has optional sound absorbers for reduced noise levels.

Rialto är designad av Peter Andersson.

DIMENSIONS

Height	110 cm
Width	44 cm
Depth	48 cm
Seat height	79 cm
Seat depth	36 cm

Any NCS-color available as an option on this product.

ADDED VALUE

- Extra high bar stool that withstands extra heavy wear
- Extended back leg forms knob to use for jacket and bag
- Any color
- Tested for public use and meets the requirements for durability & safety, set forth in the following standard, EN 16139

ACCESSORIES

- Frame in birch
- Frame in any color
- Available in wooden and fixed upholstered seat
- Sound absorber

REUSE

- Solid wood

FABRIC

- Removable and washable fabrics are washed according to washing instructions. These are sewn with a shrink seam, wash before use for optimal fit.
- Vacuuming with a soft nozzle is often sufficient for cleaning.
- Stains should always be removed as quickly as possible. In most cases, wiping with a damp cloth is sufficient, for more difficult stains, a pH-neutral detergent or a foam detergent for professional use can be used.
- Always use white cloths and avoid wetting a woolen fabric to a greater extent, as this risks remaining stains.
- If necessary, a foam detergent can also be used for a more thorough cleaning if this is allowed in the fabric's specification.

WOOD

Wood is a living material whose grain from the very beginning has a natural variation in pattern, color tone and luster. The wood is affected by, among other things, the season, heat and humidity. That wood is a living material means:

- Screws need to be re-tightened regularly, at least once a year.
- Solid table tops can naturally warp by up to 0.5%.
- Light from the sun and lighting can cause permanent color and light differences in the surface, so allow the entire wooden surface to be exposed to the same amount of light.

Out of concern for the environment, we paint a large part of our range with water-based surface treatments. This means:

- Spills of coffee and other liquids need to be wiped up immediately.
- For cleaning, hand washing detergent or pH-neutral detergents and lukewarm water are recommended. Wipe off with clean water and wipe dry. Do not use cleaning agents that are alkaline, aggressive, contain abrasives or solvents.
- For disinfection, non-alcohol-based agents are recommended, e.g. Virkon or DAX Alco Free. Alcohol-based agents must not be used.
