

FUNCTIONAL ARMCHAIR

AMULETT 736

Amulett with covered frame is available in two variants 730 which is fixed and 735 which is adjustable

Amulett family is inclusive and embracing armchairs that are designed to function in environments with high demands on comfort, hygiene and safety. Amulett is a generous but still neat and easily placed piece of furniture. For best hygiene, the entire upholstery is removable to facilitate cleaning, as well a gap between the seat, back and armrests to prevent dirt and bacteria from getting stuck. Amulett is made of FSC-certified birch and oak and is labeled with Möbelfakta.

Amulett är ritad av Studio JOOY.

- Tested for 160kg

VIEWS

ACCESSORIES

- Frame in FSC-certified oak or birch
- Wooden base in any color
- Rubber fabric/hospital fabric
- Wheel

REUSE

- Solid wood
- Removable upholstery

FABRIC

- Removable and washable fabrics are washed according to washing instructions. These are sewn with a shrink seam, wash before use for optimal fit.
- Vacuuming with a soft nozzle is often sufficient for cleaning.
- Stains should always be removed as quickly as possible. In most cases, wiping with a damp cloth is sufficient, for more difficult stains, a pH-neutral detergent or a foam detergent for professional use can be used.
- Always use white cloths and avoid wetting a woolen fabric to a greater extent, as this risks remaining stains.
- If necessary, a foam detergent can also be used for a more thorough cleaning if this is allowed in the fabric's specification.

WOOD

Wood is a living material whose grain from the very beginning has a natural variation in pattern, color tone and luster. The wood is affected by, among other things, the season, heat and humidity. That wood is a living material means:

- Screws need to be re-tightened regularly, at least once a year.
- Solid table tops can naturally warp by up to 0.5%.
- Light from the sun and lighting can cause permanent color and light differences in the surface, so allow the entire wooden surface to be exposed to the same amount of light.

Out of concern for the environment, we paint a large part of our range with water-based surface treatments. This means:

- Spills of coffee and other liquids need to be wiped up immediately.
- For cleaning, hand washing detergent or pH-neutral detergents and lukewarm water are recommended. Wipe off with clean water and wipe dry. Do not use cleaning agents that are alkaline, aggressive, contain abrasives or solvents.
- For disinfection, non-alcohol-based agents are recommended, e.g. Virkon or DAX Alco Free. Alcohol-based agents must not be used.
