

BENCH

LINNEA 331

Linnea is a series of benches with an innovative design. Linnea 331 is the highest model in the series. It enables the user to either have their legs on the bench or against the floor and the footrest.

As an option for the Linnea 331, there are footrest covers in blasted, stainless steel.

The benches in the Linnea series are available in two heights: Linnea 330 with a seat height of 45 cm, and Linnea 331 with a seat height of 63 cm. Both benches are made of birch wood and are labeled FSC and Möbelfakta. The benches are available in clear lacquered birch, or stained in white or black as standard.

Linnea är ritad av Stefan Forsberg.

ADDED VALUE

- Bench in two heights
- Flexible sitting
- Any color
- Tested for public use and meets the requirements for durability & safety, set forth in the following standard, EN 16139

ACCESSORIES

- Frame in birch
- Frame in any color
- Footrest cover in blasted stainless steel

REUSE

- Solid wood

DIMENSIONS

Height	93 cm
Width	120 cm
Depth	40 cm
Seat height	63 cm
Seat depth	35 cm

Any NCS-color available as an option on this product.

METAL

- For regular cleaning, use a lightly moistened cloth with a mild detergent without solvents or abrasives.
- For heavily soiled surfaces, a cloth moistened with alcohol can be used.
- Disinfection can be done with alcohol if the surface is dried afterwards.

WOOD

Wood is a living material whose grain from the very beginning has a natural variation in pattern, color tone and luster. The wood is affected by, among other things, the season, heat and humidity. That wood is a living material means:

- Screws need to be re-tightened regularly, at least once a year.
- Solid table tops can naturally warp by up to 0.5%.
- Light from the sun and lighting can cause permanent color and light differences in the surface, so allow the entire wooden surface to be exposed to the same amount of light.

Out of concern for the environment, we paint a large part of our range with water-based surface treatments. This means:

- Spills of coffee and other liquids need to be wiped up immediately.
- For cleaning, hand washing detergent or pH-neutral detergents and lukewarm water are recommended. Wipe off with clean water and wipe dry. Do not use cleaning agents that are alkaline, aggressive, contain abrasives or solvents.
- For disinfection, non-alcohol-based agents are recommended, e.g. Virkon or DAX Alco Free. Alcohol-based agents must not be used.
